

RHODE ISLAND DEPARTMENT OF TRANSPORTATION

**APPROVED MATERIALS LIST**

**FOR TRANSPORTATION CONSTRUCTION PROJECTS**

Prepared by  
Materials & Quality Assurance Section

January 2012

## PREFACE

- All questions concerning this list should be directed to the Rhode Island Department of Transportation - Materials and Quality Assurance at (401) 222-2524.
- This list is not to be construed as an endorsement or used for promotional purposes.
- This list is believed to be accurate as of the date of printing. Product specifications change, however, often without notice. It is the Contractor's responsibility to verify that each product is suitable for the given application and complies with the requirements of the Standard Specifications for Road and Bridge Construction at the time of its intended use.
- Products that fall within a product category being tested by the American Association of State Highway and Transportation Officials' (AASHTO) National Product Evaluation Program (NTPEP) will not be tested by the Rhode Island Department of Transportation (RIDOT). RIDOT approval for the same will be based on evaluation of the test results obtained through the NTPEP.
- Roadside hardware devices must conform to the National Cooperative Highway Research Program (NCHRP) Report 350.
- Manufacturer's of precast concrete products must request material and plant approval through the RIDOT's Materials & Quality Assurance procedure.
- The Rhode Island Department of Transportation makes no guarantee as to the availability of any of the products on the list. It is the Contractor's responsibility to check for product stock with sufficient lead-time to ensure that there are no project delays due to unavailability of materials.
