Providence, RI 02903

RE: RIDOT'S FY2022 MPDG APPLICATION
COMPLETING THE I-95 MISSING MOVE AND RAMPS TO QUONSET BUSINESS PARK

Dear Director Alviti,

On behalf of Construction Industries of Rhode Island I write to you in full support of RIDOT's FY2022 Multimodal Project Discretionary Grant Opportunity Program (MPDG) Application to advance the "Completing the I-95 Missing Move and Ramps to Quonset Business Park", which will direct freight traffic away from local roads by constructing the "Missing Move" ramps linking Interstate 95 to and from Route 4 in East Greenwich, and installing deferred Route 403 ramps to the West Davisville district of the Quonset Business Park in North Kingstown. With a total cost of \$135million, RIDOT is requesting \$81 million in its application.

For decades, Rhode Island travelers have been unable to complete the links between Route 4 and Interstate 95 without navigating a series of signals and local roads. This project would finally complete the link between these two highways and provide smoother connections to one of the state's largest employers by building the deferred Route 403 ramps to the West Davisville district of Quonset Business Park in North Kingstown.

This is an important freight route that serves as a critical element of our economic infrastructure. MPDG funding for this project will deliver economic opportunity and vitality for our State by allowing faster, more efficient commerce through this busy freight trucking link, and by supporting much-needed construction jobs.

Because we must seize this window of opportunity to rebuild this critical transportation infrastructure, Construction Industries of Rhode Island enthusiastically supports RIDOT's MPDG Application and look forward to working with RIDOT in advancing the reconstruction of the most vital north-south link in our state today.

Should you have any questions please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Timothy R. Scanlon", written over a large, light-colored oval shape.

Timothy R. Scanlon
