Crashes by Month

ABOUT THE DATA

This report summarizes police-reported crashes submitted to the statewide crash data repository by city, town, and state police agencies. Statistics reflect crashes contained in the repository as of the report date. Certain crashes that do not meet Rhode Island reporting requirements may not be included.

† Includes 4,721 crashes occurring in parking lots and 36,060 on public roads.

* Fatal and serious-injury counts may be preliminary and are subject to revision as additional reports are received and investigations, reviews, and classifications are finalized.

NHTSA's Fatality Analysis Reporting System (FARS) is a separate federal system for tracking fatal motor vehicle crashes. Finalized FARS counts may differ from the statewide repository counts. Official federal fatality statistics are available from NHTSA through FARS: <https://www.nhtsa.gov/research-data/fatality-analysis-reporting-system-fars>
